

# BELLARMUN

crisis directive guide

## WHAT IS A DIRECTIVE?

You can think of a directive like a mini-resolution. Directives are sent on notes to the dais, and sometimes the dais can receive over 200 directives at one conference! Delegates can write and send directives individually, or in groups.

## WHY DO YOU SUBMIT DIRECTIVES?

You submit a directive whenever you want to make an action that affects the crisis' situation---this is something you cannot do in debate. For example, you can't say "I am storming Russia!", you need to submit a directive to make that action happen.

Go to the next page to learn how to write a the two types of directives!
